MEMO FOR THE RECORD

Dick Bissell telephoned me at home last night and said that Frederick Kuh, of the CHICAGO SUN-TIMES, was trying to get in touch with him to discuss a meeting that had occurred within the last few days regarding Laos. Bissell wanted to know if he should call Kuh. I told him he might have his secretary call Kuh and regret that he (Bissell) would not be available to discuss what had occurred at a meeting, nor could he say that there was a meeting on Laos in the Government, and that he should not give Kuh an interview. Bissell said he would just not reply at all to Kuh's request that he telephone him.
